# YouthBuild Boston Programs and How to Apply

#### **Description:**

YouthBuild Boston was founded with the goal of providing underserved young people with the support and credentials they need in order to succeed in the construction and design industries.

### **Building Trades Exploration:**

- A 6-9 month program for young adults without high school diplomas
- Gain exposure to safety, tools, materials and methods all while taking HiSET prep classes
- By completing the course, graduates will receive a bi-weekly stipend, 10-hour OSHA certification, First Aid/CPR certification and NCCER certification

# The Designery:

- A 7-9 week program for high school students
- Students will receive a bi-weekly stipend for honing graphic, modeling, and critical design-thinking skills for non-profit clients
- Students also have the opportunity to participate in multiple programs and gain internships

# **Pre-Apprentice:**

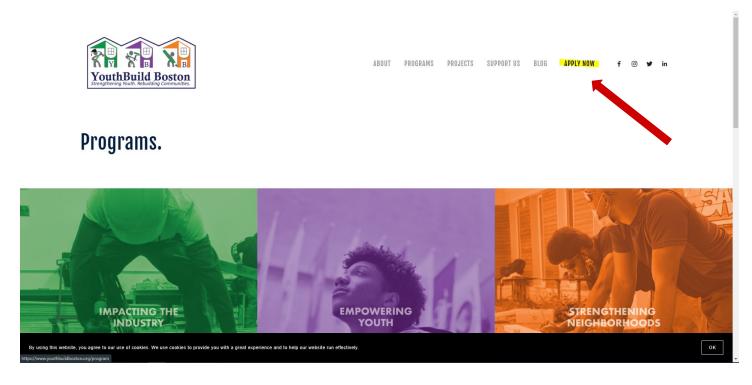

- A 15-week program for young adults with their diploma looking to start a career in construction
- Includes on-site training and professional development workshops ranging from metal stud framing training to Networking 101
- By completing this course, graduates will receive their 10-hour OSHA, First Aid/CPR, AED and Ladder Safety Training certifications

#### **Facilities Maintenance:**

- An 18 month program that consists of classroom instruction and on-the-job training
- Learn basic plumbing, electrical and mechanical skills as well as cleaning and preventative maintenance, pest management, landscaping and safety
- Participants in this course are employed full-time with a sponsor and can earn 8 college credits to use towards a Bachelor's degree in Facilities Management

### Interested in signing up for any of these programs?

- Navigate to the Apply Now breadcrumb as seen in the screenshot below
- Then, click on the Apply button for the applicable program and fill out the form
