## Hotspots from Verizon

Verizon offers data plans for hotspots. If you have an old hotspot from TGH, you may be able to use it! If not, you'll need to buy one. If you have a smartphone with data through Verizon, the unlimited data plans are $\$ 20$ or $\$ 30$. However, if you are not a current Verizon customer, their data plans are $\$ 75$ or $\$ 85$ per month. Often the price that is advertised is much lower than the price you will really need to pay for the service. Make sure to always asks what the costs are before making a purchase. It may be easiest to go into a store, ask about options and open an account.This tutorial will show you how to purchase a plan online.
